

Have your say...
we need your feedback
by noon on **7 April 2014**

Your local NHS Clinical Commissioning Group buys, on your behalf, a wide range of health services, treatments and procedures. Most of these are aimed at everyone – but some are for very specific conditions or for small groups of patients with specific needs.

From time to time, the type of services, treatments and procedures that we buy has to change and be updated to reflect advances in treatments, technology, latest evidence and national best practice guidance.

We are currently reviewing a number of treatments, procedures and services, and we need your help in making our decisions on the commissioning (buying) policy for such things.

As a patient or public member...

We will take all your feedback into account before we approve our new commissioning (buying) policy. You have the right to inform our final decision. So please take part in our consultation.

Please go to the website below to learn more and provide your feedback:
