Re: Freedom of Information Request

Please find below the response to your recent Freedom of Information request regarding carers of people with dementia services within NHS Southport and Formby CCG.

Request/[Response](#):

I have recently found a database on the NHS England website concerning the prevalence of dementia diagnosis rates in each CCG area. I was wondering if a similar thing existed for the carers of people with dementia, or if it was possible to obtain this information, either for your specific CCG area or all CCG areas?

The [Dementia Diagnosis Rates](#) are part of the Prime Ministers Challenge on Dementia which includes an ambition to increase diagnosis rates through regular checks for people over the age of 65 years. The CCG does not hold similar information for carers of people with dementia; however you may wish to direct your enquiry to Sefton Carer's Centre who may hold this information.
