---	---	--	--	--

4. Here is a list of vulnerabilities/adversities that can impact on the ability of parents-to-be to engage with antenatal education:

- those with mental health difficulties
- those experiencing social isolation or from a socially marginalised community
- survivors of domestic abuse
- those with learning difficulties
- those with substance use difficulties
- parents who have had previous children removed into care
- care leavers
- teenage parents
- parents in prison
- those not speaking English as a first language
- those with chaotic or transient lifestyles
- black or minority ethnic communities
- those with anti-social or offender behaviour
- asylum seekers

Much of this information is gathered by midwives at booking in appointments.

4. (a) Do you, or have you in the past, carry/carried out any analysis of this data, or collected and analysed any data, to determine whether parents-to-be experiencing any of these difficulties are less likely to access/engage with antenatal education delivered in your area than those who do? - **yes or no?**

4. (b) Do any of the antenatal education classes specifically target vulnerable parents-to-be? **-yes or no?** If yes, which ones?

Analysis of data?	Antenatal education for vulnerable parents-to-be?
